

# Hyaluronic Acid Boosting Serum

Plump and firm skin through increased hydration with this advanced hyaluronic acid formulation. This smoothing blend provides deep, long-lasting hydration on three levels: on the surface, deeper in the skin, and by increasing the skin's own hyaluronic acid production.

## Key Benefits

- ✓ Instant hydration and smoothing on the surface of the skin
- ✓ Deeper hydration and fine line reduction with the addition of hydrolyzed hyaluronic acid
- ✓ Proprietary blend HA-Pro Complex™ encourages the skin to create its own hyaluronic acid, resulting in long-term anti-aging and hydration

## Key Ingredients

- + **Hyaluronic Acid and Sodium Hyaluronate (Hyaluronic Acid Sodium Salt)** – high molecular weight hyaluronic acid occludes the skin, attracting and holding 1,000 times its weight in moisture within the skin. It provides smoothing and softening of the skin while reducing transepidermal water loss (TEWL) and increasing moisture content in the upper skin layers.
- + **Hydrolyzed Hyaluronic Acid** – due to its small molecular size, it is able to penetrate through the skin to deliver deeper moisturization and significantly reduce deep wrinkles.
- + **HA-Pro Complex™** – PCA SKIN®'s proprietary blend works to stimulate the production of the skin's own native hyaluronic acid. HA-Pro Complex™ delivers 24-hour moisturization through all levels of the skin, smoothing fine lines and wrinkles, and plumping and firming the skin for long term improvement.
- + **Ceramides** – supports the renewal of the skin's natural protective layer and forms an effective barrier against moisture loss; improves long-term moisturization and protects skin from external offenders.
- + **Niacinamide** – a potent, yet calming antioxidant that delivers multiple important benefits to the skin. It helps to reduce TEWL and improve barrier function. This is critical for healthy, bright skin. Additionally, it helps reduce redness, skin yellowing, and promotes an even skin tone.

## Skin Type

- Dry
- Oily
- Combination
- Normal
- Sensitive

## Directions for use

After cleansing, apply to the entire face and neck in the morning and evening for maximum skin hydration and plumping. Follow with the appropriate PCA SKIN® broad spectrum SPF product in the daytime and moisturizer in the evening.

Retail: net wt 1 oz | Trial: net wt 0.25 oz

## Ingredients

Water/Aqua/Eau, Propanediol, Glycerin, Dimethicone, Niacinamide, Hydrolyzed Yeast Extract, Polyglyceryl-6 Distearate, Coconut Alkanes, Phenoxyethanol, Jojoba Esters, Isododecane, Dimethicone Crosspolymer, Carbomer, Polysilicone-11, Cetyl Alcohol, Polyglyceryl-3 Beeswax, Sodium Benzoate, Xanthan Gum, Hydrolyzed Hyaluronic Acid, Sodium Hyaluronate, Sodium Lauroyl Lactylate, Disodium Acetyl Glucosamine Phosphate, Hydrolyzed Glycosaminoglycans, Sodium Hydroxide, Ethylhexylglycerin, Polygonum Bistorta Root Extract, Cetyl Hydroxyethylcellulose, Rosmarinus Officinalis (Rosemary) Leaf Oil, Aroma, Polyglucuronic Acid, Ceramide NP, Sodium Carrageenan, Ceramide AP, Phytosphingosine, Cholesterol, Lecithin, Maris Sal, Leuconostoc/Radish Root Ferment Lysate Filtrate, Hyaluronic Acid, Ceramide EOP.

## Clinical Information

A study was completed at an outside, third-party testing facility to measure electroconductivity (increase in skin moisture content) via Novameter. The study of 25 participants applying only **Hyaluronic Acid Boosting Serum** was completed and measured moisture content at baseline, 15 minutes post-product application, two hours post-application, and again after eight hours. The investigating scientist reported that 100% of participants saw increased and maintained moisture levels at each time point measured.

## The Result of Hyaluronic Acid Boosting Serum

## Conclusion

The study demonstrated that **Hyaluronic Acid Boosting Serum** provided an increase in the moisture content in the skin by 225% after 15 minutes, maintained 67% after two hours, and 35% after eight hours. All participants indicated an improvement in moisture levels. No adverse events were reported.

## Pro Tips

Using **Hyaluronic Acid Boosting Serum** before applying makeup can smooth the skin for smoother cosmetics application.

Twice daily application will result in softer, smoother, and more hydrated skin long-term.

For those with normal or combination skin during warmer months, incorporating **Hyaluronic Acid Boosting Serum** during the winter months can help combat cold-weather dryness.
