

Ideal Complex® Revitalizing Eye Gel | Restorative Eye Cream

Available as a rich cream in **Ideal Complex® Restorative Eye Cream** or as a lightweight gel in **Ideal Complex® Revitalizing Eye Gel**, the two formulas have shown rapid and superior results.

Key Benefits

- ✓ Reduces sagging eyelids
- ✓ Minimizes fine lines and wrinkles
- ✓ Decreases puffiness
- ✓ Brightens dark circles

Key Ingredients

- + **Boron Nitride** – a naturally occurring mineral that reflects light away from the eye area, leaving dark circles and under eye bags immediately brighter.*
- + **Myristoyl Nonapeptide-3** – a novel peptide that mimics retinoic acid (vitamin A) to increase cell turnover and collagen synthesis without causing negative side effects, such as irritation and stinging.
- + **Acetyl Tetrapeptide-5** – a peptide with anti-edema effects that increases skin elasticity and skin moisturization while improving the appearance of dark circles around the eyes.
- + **Citrus Aurantium Dulcis Callus Culture Extract (Orange Stem Cell Extract)** – increases the production of collagen and elastin; and organizes and redensifies the dermal structure to reduce fine lines and wrinkles, and increase elasticity and firmness.
- + **Albizia Julibrissin Bark Extract and Darutoside** – reduces upper eyelid sagging, strengthens the dermis and reduces crow's feet wrinkles, while addressing dark circles and puffiness.
- + **Niacinamide, Fraxinus Excelsior Bark Extract, and Silanetriol** – this combination of ingredients reduces eye puffiness, dark circles, and eye bags while infusing antioxidants into the skin.
- + **Myristoyl Pentapeptide-8 and Myristoyl Hexapeptide-4** – peptides that stimulate collagen synthesis and tissue repair, and provide an effective alternative to human growth factor.

PCA SKIN®'s rigorous product development process includes partnering with dermatologists to test the effectiveness of each formula before it's put on the market. Our before and after photos are a sampling of the results seen during this process. These photos are never retouched.

Pro Tips

Both formulas are hypoallergenic and can be applied directly to the eyelid.

Keep **Ideal Complex® Restorative Eye Cream** or **Ideal Complex® Revitalizing Eye Gel** in the refrigerator for a cooling application and added relief from puffiness.

For those with dark circles, opt for **Ideal Complex® Restorative Eye Cream**. It includes an additional ingredient, boron nitride, that reflects light and instantly brightens dark circles.
